Thorsten Bahrenberg et al.

Author comment on "The decay of the refocused Hahn echo in double electron–electron resonance (DEER) experiments" by Thorsten Bahrenberg et al., Magn. Reson. Discuss., <https://doi.org/10.5194/mr-2021-10-AC3>, 2021

The pdb could go up as an SI. As for the code itself, it is being worked on to become publicly available
