Author comment on "Real-time nuclear magnetic resonance spectroscopy in the study of biomolecular kinetics and dynamics" by György Pintér et al., Magn. Reson. Discuss., <https://doi.org/10.5194/mr-2021-16-AC1>, 2021

Dear Peter,

thank you for your nice comments. We will of course correct the points in the final version of the manuscript.

We will wait before we do so to see additional comments.

best wishes
