Author comment on "Hyperpolarization and the Physical Boundary of Liouville Space" by Malcolm H. Levitt and Christian Bengs, Magn. Reson. Discuss., https://doi.org/10.5194/mr-2021-26-AC5, 2021

Some good suggestions there, Tom, although I do not immediately see how to use the invariance of the trace of the higher density operator powers. Nevertheless your suggestion certainly merits a close look - probably in future though.
