Author comment on "Effects of radial radio-frequency field inhomogeneity on MAS solid-state NMR experiments" by Kathrin Aebischer et al., Magn. Reson. Discuss.,  
<https://doi.org/10.5194/mr-2021-43-AC2>, 2021

---

We are still running some more simulations but we plan on including some of them into the SI of the final version of the paper.
