Malcolm Levitt (Referee)

Referee comment on "Effects of radial radio-frequency field inhomogeneity on MAS solid-state NMR experiments" by Kathrin Aebischer et al., Magn. Reson. Discuss.,
<https://doi.org/10.5194/mr-2021-43-RC2>, 2021

Thanks to the authors for considering this early work and I hope it is possible for them to add the R3 simulations to the revised manuscript.
