Referee comment on "Radiation damping strongly perturbs remote resonances in the presence of homonuclear mixing" by Philippe Pelupessy, Magn. Reson. Discuss., <https://doi.org/10.5194/mr-2021-65-RC4>, 2022

Interesting comment, Ad. For years I got emails hoping that "MLEV" (Ray Freeman's nomenclature, unfortunately) could explain to them what the 17th pulse in "MLEV17" does. They were invariably disappointed.
