Author comment on "Reverse dynamic nuclear polarisation for indirect detection of nuclear spins close to unpaired electrons" by Nino Wili et al., Magn. Reson. Discuss., <https://doi.org/10.5194/mr-2022-12-AC4>, 2022

I uploaded a revised manuscript and answers to the reviews in the submission page of MR. I attach the answers here as well.

Please also note the supplement to this comment:
