Comment on mr-2022-16

Tom Barbara (Referee)

Referee comment on "Multidimensional encoding of restricted and anisotropic diffusion by double rotation of the q vector" by Hong Jiang et al., Magn. Reson. Discuss., <https://doi.org/10.5194/mr-2022-16-RC1>, 2022

I am experiencing something of a conundrum with the theory of this paper. Please see the supplemental pdf for more details.

Please also note the supplement to this comment:
