Paula Freire et al.

Author comment on "Flood and drought risk assessment for agricultural areas (Tagus Estuary, Portugal)" by Paula Freire et al., Nat. Hazards Earth Syst. Sci. Discuss.,
<https://doi.org/10.5194/nhess-2020-422-AC1>, 2021

We thank you for the suggestion. Further details will be added to the discussion on how the proposed risk assessment approach can be used as decision-making support. A table with examples of adaptation measures will be added.
