Qiwen Lin et al.

Author comment on "Multiscale effects caused by the fracturing and fragmentation of rock blocks during rock mass movement: implications for rock avalanche propagation" by Qiwen Lin et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-127-AC4>, 2021

In order to further answer the referee's comments and suggestions, we upload a response letter to give more information. And the final response letter to two referees and revised manuscript will give in next step.

Please also note the supplement to this comment:
