Doris E. Wendt et al.

Author comment on "Evaluating integrated water management strategies to inform hydrological drought mitigation" by Doris E. Wendt et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-129-AC2>, 2021

We thank the Reviewer for their careful reading and constructive comments to improve the clarity of the submitted manuscript. We will address each comment in detail in the rebuttal, but we have addressed the first five major comments in this Author's response to clarify important aspects of the paper and show how we will include the provided suggestions in the revised manuscript.

Please find the attached Author Response in PDF version.

Please also note the supplement to this comment:
