Author comment on "Achieving Sendai Framework in Africa: Progress and challenges toward Target E" by Nyandiko Nicodemus and Otworu Dennis, Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-132-AC1>, 2021

Thanks for the corrections and comments most appreciated. The authors will introduce Target E to the readers under the introduction section to ensure understanding of the target by the reader. The 10 points and four priorities will also be addressed. The grammar will be addressed and a list of abbreviations will be provided.
