Author comment on "Chronicle of a forecast flood: exposure and vulnerability on the southeast coast of Spain" by Rubén Giménez-García et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-134-AC1>, 2021

Dear colleagues:

We have just read the suggestions for improvement made by reviewer 1, and these are truly timely and will improve the paper. We are very grateful to this reviewer and to you for the excellent work you do to make this journal improve day by day and achieve top positions in the scientific field.

Best regards.
