Author comment on "Chronicle of a forecast flood: exposure and vulnerability on the southeast coast of Spain" by Rubén Giménez-García et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-134-AC2>, 2021

Dear Colleague,
thank you very much for your participation, as you rightly say, it is a work that analyses a similar line of research.
We will take it into account, we will refer to it and we will compare the information obtained in our study with the one you indicate.

Best regards and thank you very much again.
