Author comment on "Chronicle of a forecast flood: exposure and vulnerability on the southeast coast of Spain" by Rubén Giménez-García et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-134-AC3>, 2021

Dear colleague,

thank you very much for participating in the review process of our research work. All suggestions for improvement have been taken into account and tried to correct. Their contribution has contributed to developing and providing the document with a higher scientific level.

Best regards.

Ramón, Víctor y Rubén.
