Author comment on "Considering human-water-environment impacts holistically in flood management by combining spatial MCDA with cost-benefit analysis" by Cyndi V. Castro and Hanadi S. Rifai, Nat. Hazards Earth Syst. Sci. Discuss.,
<https://doi.org/10.5194/nhess-2021-144-AC1>, 2021

We appreciate the comments from the reviewer, Dr. Mariana de Brito, and provide detailed responses in the attached pdf.

Please also note the supplement to this comment:
