Haixia Zhang et al.

Author comment on "Assessment of direct economic losses of flood disasters based on spatial valuation of land use and quantification of vulnerabilities: a case study on the 2014 flood in Lishui city of China" by Haixia Zhang et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-163-AC1>, 2021

We sincerely thank Jean-Paul Pinelli for the valuable feedback, which we have used to improve the quality of our manuscript. Please see our responses in the attached supplement.

Please also note the supplement to this comment:
