Author comment on "Geo-historical analysis of flood impacts in Alpine catchments (HIFAVa database, Arve River, France, 1850–2015)" by Eva Boisson et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-169-AC1>, 2021

Dear Referee,

Thank you for your thoughtful comments, the time and effort towards improving our manuscript. We appreciate your comments on the figures.

We incorporated changes to reflect most of the suggestions you provided. Here is a point-by-point response to your comments and concerns.

Please also note the supplement to this comment:
