Comment on nhess-2021-180

Anonymous Referee #1

Referee comment on "Assessment of potential beach erosion risk and impact of coastal zone development: a case study on Bongpo–Cheonjin Beach" by Changbin Lim et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-180-RC4>, 2021

Referee RC1 has read the detailed comments in nhess-2021-180-RC3-supplement (PDF) and agrees with all the issues raised in that supplement.

By combining the comments given by this referee (RRC1, Referee 1) and that of the RC3 (Referee 2?),

I believe the authors would be able to produce a good paper for many NHESS readers.
