Comment on nhess-2021-208

abderraouf kebir

Community comment on "Earthquake-induced landslide monitoring and survey by means of InSAR" by Tayeb Smail et al., Nat. Hazards Earth Syst. Sci. Discuss.,
<https://doi.org/10.5194/nhess-2021-208-CC1>, 2021

In term of prediction of such hazards, do the methods used discover the landslide before it happened or is after event monitoring?
