Ruth Stephan et al.

Author comment on "An inventory of Alpine drought impact reports to explore past droughts in a mountain region" by Ruth Stephan et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-24-AC1>, 2021

We would like to thank Anne Van Loon for her constructive comments and feedback on this manuscript. We think that the suggested revisions based on the Referee's comments will certainly improve the article. Read our attached comments.

Please also note the supplement to this comment:
