Author comment on "Residential building stock modelling for mainland China targeted for seismic risk assessment" by Danhua Xin et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-26-AC3>, 2021

Dear Editor and Referee 1,

I have no idea how come the attachment of the response letter did not succeed in my previous response.

Therefore, here I attach it to the system again.

In case it cannot be downloaded directly from the NHESS system, from the following link our response can be downloaded as well
(<https://www.jianguoyun.com/p/DW8aLEMQgPb4BhiWpIYE>).

I am very sorry for the inconvenience posed for you.

Best regards,

Danhua
