Author comment on "Characteristics and causes of natural and human-induced landslides in a tropical mountainous region: the rift flank west of Lake Kivu (Democratic Republic of the Congo)" by Jean-Claude Maki Mateso et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-336-AC3>, 2021

Dear editor,

Dear reviewer,

Find below our answer to the various comments, questions and suggestions. You will see that we can easily address most of what is being asked, either when it concerns to bring some extra material to the discussion or when it concerns the presentation/structure of the text.

Regards,

Jean-Claude Maki Mateso (on behalf of the coauthors)
