Fabrizio Marra et al.

Author comment on "A morpho-tectonic approach to the study of earthquakes in Rome" by Fabrizio Marra et al., Nat. Hazards Earth Syst. Sci. Discuss., https://doi.org/10.5194/nhess-2021-399-AC3, 2022

We will follow also this suggestion, introducing a summary of the seismotectonic fatures of the area of Roma illustrated in previous literature.
