Community comment on "Analysis of seismic strain release related to the tidal stress preceding the 2008 Wenchuan earthquake" by Xuezhong Chen et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2021-405-CC1>, 2022

Dear Editor,

Herewith I have enclosed my comments on paper titled "Analysis of seismic strain releases related to tidal stress before the 2008 Wenchuan earthquake". Overall the authors have made observation that there is a seismic strain release, but the authors have to explain further why such behavioural changes observed between PEQs and NEQs.

Yours faithfully,

Venkatanathan
