Aurélia Bernard et al.

Author comment on "Bangladesh's vulnerability to cyclonic coastal flooding" by Aurélia Bernard et al., Nat. Hazards Earth Syst. Sci. Discuss.,
<https://doi.org/10.5194/nhess-2021-8-AC1>, 2021

Dear Referee,

We are sincerely grateful for your constructive comments and suggestions that, we believe, have helped us to make the manuscript clearer, more precise and robust. Following the recommendations, we revised the manuscript based on your reviewers' comments. We address you point-by-point all the answers and we will modify the manuscript accordingly. Please, see the attached file.

Please also note the supplement to this comment:
