Pankaj R. Dhote et al.

Author comment on "Multi-mission altimetry data to evaluate hydrodynamic model-based stage-discharge rating curves in flood-prone Mahanadi River, India" by Pankaj R. Dhote et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2022-101-AC1>, 2022

We are grateful to reviewer for thoughtful remarks and suggestions. Our response (in black) to each review comment (in red) is given in attached supplement. We will revise our manuscript as per the comments during revision process. In addition, we might incorporate other changes, facilitated by a new reading.

Please also note the supplement to this comment:
