Author comment on "Coupling wildfire spread simulations and connectivity analysis for hazard assessment: a case study in Serra da Cabreira, Portugal" by Ana C. L. Sá et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2022-107-AC1>, 2022

---

We would like to thank the reviewer's suggestion that is relevant to compare fireline intensity (as measured by the CFL estimate) with the forest fire loss (FFL) dataset. Here we include a pdf file with a bried analysis, that may be included as Supplement in the final version of the manuscript.

Best regards,

Ana Sá

Please also note the supplement to this comment:
