Seok Bum Hong et al.

Author comment on "Development of black ice prediction model using GIS-based multi-sensor model validation " by Seok Bum Hong et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2022-147-AC3>, 2022

Thanks for your constructive comments on this manuscript. We have attached the response letter.

(The answer to the PDF attachment was missing from the previous response letter, so I'm posting a revised version. Sorry for the confusion.)

Please also note the supplement to this comment:
