Referee comment on "Sensitivity analysis of a built environment exposed to the synthetic monophasic viscous debris flow impacts with 3-D numerical simulations" by Xun Huang et al., Nat. Hazards Earth Syst. Sci. Discuss., https://doi.org/10.5194/nhess-2022-173-RC3, 2022

I appreciate the effort done by the authors, however some questions are still open. See the attached file
