We would like to thank the reviewer for his/her comments and appreciation for the submitted manuscript. We are carefully evaluating all the suggestions, and we are planning to incorporate the following adjustments to the paper:

- We will integrate the referenced literature by adding the reviewer’s suggestions. We will integrate the text to discuss this additional literature.
- We will expand the details on the Eurostat data included in the analysis, and clarify the crops included under cereals.
- We will revise Table 1 by adding some details on the reported impacts for each study.
- We will rearrange the panels in Figure 2 in order to improve the visualization.
