Barreca Giovanni

Community comment on "Brief communication: The crucial assessment of possible significant vertical movements preceding the 28 December 1908, $M_w = 7.1$, Messina Straits earthquake" by Nicola Alessandro Pino, Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2022-49-CC1>, 2022

Dear colleague/reviewer, I kindly suggest you have a read on:

Barreca et al., 2021a: <https://doi.org/10.1016/j.earscirev.2021.103685>

Barreca et al., 2021b: <https://doi.org/10.1016/j.earscirev.2021.103866>

Barreca et al., 2022: <https://doi.org/10.1016/j.earscirev.2022.103962>

before starting a discussion on the brief communication provided by NAP

cheers

Giovanni
