Author comment on "Improving the predictability of the Qendresa medicane by the assimilation of Conventional and Atmospheric Motion Vector observations. Storm-scale analysis and short-range forecast." by Diego Saúl Carrió, Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2022-58-AC2>, 2022

Dear reviewer,

I really appreciate your time and effort providing such valuable comments and suggestions. I think the new version of the manuscript, after applying your suggestions, has improved significantly.

Please, see the attached file that contains a point-by-point response to all your comments and inquiries.

Thanks in advance,

Diego
