Author comment on "Earthquake-induced landslides in Haiti: seismotectonic and climatic influences, size-frequency relationships" by Hans-Balder Havenith et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2022-83-AC2>, 2022

Dear reviewer,

these are all valuable comments and we will consider them when preparing the revised version of the paper.

Sincerely yours

the main author
