Community comment on "A Scenario-based Case Study: AI to analyse casualties from landslides in Chittagong Metropolitan Area, Bangladesh" by Fahim Sufi et al., Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2022-90-CC2>, 2022

Its an intersting topic in the field of natural hazard. A scenario-based study will help us to make a quick decision in disaster management. Both linear and logistic regressions have used to get clear picture in landslide inventories.
