Guillaume Evin et al.

Author comment on "Calibrated ensemble forecasts of the height of new snow using
quantile regression forests and ensemble model output statistics" by Guillaume Evin et al.,
Nonlin. Processes Geophys. Discuss., <https://doi.org/10.5194/npg-2021-18-AC4>, 2021

We thank the editor for the feedback and the three minor suggestions. We will revise the
manuscript according to the reviewers' comments, most of them being totally relevant.
They will certainly help to improve this contribution.

Guillaume Evin, on behalf of all the authors
