Comment on npg-2021-18

Olivier Talagrand (Editor)

Editor comment on "Calibrated ensemble forecasts of the height of new snow using quantile regression forests and ensemble model output statistics" by Guillaume Evin et al., Nonlin. Processes Geophys. Discuss., <https://doi.org/10.5194/npg-2021-18-EC2>, 2021

My Editor suggestion is that the authors write a new version of their paper along the lines they have defined. See also attached comment.

Please also note the supplement to this comment:
