Received and published: 20 June 2019

Dear Editor and Reviewer,

First of all I apologize for not answering earlier because of other priorities in my work plan. I thank the reviewers for their comments and in my understanding most of the comments advise to merge parts A and B in one paper and keeping the main results and achievements of this work. This is what we want to do before the deadline of 29 june. I want to ask you if it is possible to submit a merged paper instead of the two parts in the review process.

Thanks in advance for your understanding,

Best regards Lotfi
