## Comment on os-2020-121

Kristian Schlegel (Referee)

---

Referee comment on "Preface: Developments in the Science and History of Tides" by Philip L. Woodworth et al., Ocean Sci. Discuss., <https://doi.org/10.5194/os-2020-121-RC1>, 2021

---

I am not at all an expert on tides, but as executive editor of HGSS I can state that this preface fully serves its purpose. It gives a convenient introduction to the SI and a comprehensive overview of its content. The only item I want to note is, that the sentences line 97-100 on page 3 are not quite correct: The authors should clearly express that **five** journals participate in the SI but contributions are only included from **three** journals.
