Author comment on "Internal tides off the Amazon shelf during two contrasted seasons: interactions with background circulation and SSH imprints" by Michel Tchilibou et al., Ocean Sci. Discuss., <https://doi.org/10.5194/os-2021-114-AC1>, 2022

We thank the reviewer for taking the time to review our manuscript. We particularly appreciate the recommended publications on the internal tide regime. We are glad that the reviewer finds the article publishable after minor revisions. Please find the reviewers' comments and our responses in the attached file

Please also note the supplement to this comment:
