Comment on os-2021-13

Neil Wells (Editor)

Editor comment on "Interannual variability in contributions of the Equatorial Undercurrent (EUC) to Peruvian upwelling source water" by Gandy Maria Rosales Quintana et al., Ocean Sci. Discuss., <https://doi.org/10.5194/os-2021-13-EC1>, 2021

There is an important omission in this paper and that there is no reference to a recent paper in JGR Oceans doi:10.1029/2020JC016609 by Karnauskas et al. entitled "The Pacific Equatorial in Three Generations of Global Climate Models and Glider Observations"

This should be referenced in your paper in both the bibliography and the main text.
