Karen J. Heywood (Editor)

Editor comment on "The role of oceanic heat flux in reducing thermodynamic ice growth in Nares Strait and promoting earlier collapse of the ice bridge" by Sergei Kirillov et al., Ocean Sci. Discuss., <https://doi.org/10.5194/os-2022-16-EC1>, 2022

The two reviewers have provided copious suggestions for strengthening your paper and I look forward to your responses in discussion.
