Author comment on "Application of anisotropy of magnetic susceptibility (AMS) fabrics to determine the kinematics of active tectonics: examples from the Betic Cordillera, Spain, and the Northern Apennines, Italy" by David J. Anastasio et al., Solid Earth Discuss., https://doi.org/10.5194/se-2020-184-AC1, 2021

Dario,

Thank you for your comments and corrections.

Dave
