Paolo Boncio et al.

Author comment on "Late Quaternary faulting in southern Matese (central Italy): implications for earthquake potential in the southern Apennines" by Paolo Boncio et al., Solid Earth Discuss., <https://doi.org/10.5194/se-2021-73-AC1>, 2021

We thank the Reviewer for the detailed review and for constructive comments.

We are happy to improve the manuscript by accepting almost all the Reviewer's suggestions, with few explained exceptions. The point by point response to the Reviewer's comments is given in the attached file.

Best Regards,

Paolo Boncio on behalf of all co-authors.

Please also note the supplement to this comment:
