Frank Pazzaglia (Editor)

Editor comment on "Late Quaternary faulting in southern Matese (central Italy): implications for earthquake potential in the southern Apennines" by Paolo Boncio et al., Solid Earth Discuss., <https://doi.org/10.5194/se-2021-73-EC1>, 2021

The AE thanks this reviewer for the detailed and very constructive comments on the Boncio et al manuscript.
