Author comment on "Biotite supports long-range diffusive transport in dissolution–precipitation creep in halite through small porosity fluctuations" by Berit Schwichtenberg et al., Solid Earth Discuss., <https://doi.org/10.5194/se-2021-83-AC2>, 2021

---

Dear Referee no. 2,

we would like to thank you for your very constructive and detailed assessment of our manuscript. We further appreciate the time and effort that you and referee no. 1 have dedicated to providing your valuable feedback on our manuscript. We are able to include most of your suggested changes which will be highlighted in the revised manuscript.

Please find our responses to your comments in the PDF attached as a supplement.

Kind regards,  
Berit Schwichtenberg and co-authors
