Comment on soil-2020-105

Bas van Wesemael (Editor)

Editor comment on "Developing the Swiss mid-infrared soil spectral library for local estimation and monitoring" by Philipp Baumann et al., SOIL Discuss.,
<https://doi.org/10.5194/soil-2020-105-EC1>, 2021

Dear Authors,

Could you please check your reply to the reviewers. As far as I can see you have (by mistake) posted the reply for a paper on the Yam procuding landscape in Africa (SOIL 2020-100. I look forward to the correct response.
