Comment on soil-2021-12

Paul Hallett (Editor)

Editor comment on "Effects of environmental factors and soil properties on soil organic carbon stock in a natural dry tropical area of Cameroon" by Désiré Tsozué et al., SOIL Discuss., <https://doi.org/10.5194/soil-2021-12-EC2>, 2021

There will be another review coming in on this paper. Please hold off revising the manuscript until these come in so that you can provide a consolidated response and edits to both reviewers.
