Comment on soil-2021-125

Maria Jesus Gutierrez Gines (Editor)

Editor comment on "Migration behavior of benzobicyclon hydrolysate and associated influencing factors in different agricultural soils" by Lang Liu et al., SOIL Discuss., <https://doi.org/10.5194/soil-2021-125-EC1>, 2022

Dear authors,

Thank you for submitting your manuscript to Soil, and to respond to the reviewers' comments. Unfortunately, I have to suggest the rejection of this manuscript given that the comments of the reviewers, above all regarding the methods, cannot be addressed by just modifying the text.

Best wishes,

Maria Gutierrez
