*Dear Reviewer#2,*

*We would like to thank you for the helpful comments on our manuscript entitled "Deforestation effects on soil erosion rates and soil physicochemical properties in Iran: a case study of using fallout radionuclides in a Chernobyl contaminated area". Indeed, these valuable comments helped us to improve the content of our study.*

*We carefully considered the comments and revised our manuscript accordingly. Please find below our detailed responses.*

*Yours sincerely,*

*Maral Khodadadi on behalf of all the authors.*

Please also note the supplement to this comment:
